Region IX
"Helping to Raise the Profile of the Code Official & the Next Generation."

Dear Region IX Members

I want to take this opportunity to write our first Newsletter of 2019, and to thank all of you for having the confidence in allowing me to be your President for 2018-2019.

I also want to announce that our new Region IX website is available now for all to see.

I want to give special thanks to Mark Roberts, Lead Senior Regional Manager, Government Relations for ICC, and Chris Hristov from the ICC IT Department for creating the portal and hosting our new Region IX website, and to Doug Wise, Building Official for Palm Beach County in Florida for working tirelessly on his own personal time to build our website and populate it with old records provided by members of our Association. It's a work in progress as we continue to populate the website with important information that will benefit all our members.

I will like to invite all members to provide us any information that you would like to share such as news, related to your chapters, meeting dates, special events, photos, or any information you want the members to know, please send them to me.

Visit our website at www.chapter.iccsafe.org/region9

As your President, I, and your Region IX Directors are here to listen to any concerns you may have, and be your voice to ICC.

Region IX President
Claudio Grande CBO CFM
